RULES & REGULATIONS

HAZING

It is unlawful for any student in attendance at any university, college or school in this State to engage in hazing, or to aid or abet any other student in the commission of this offence. For the purpose of this section hazing is defined as follows: "to subject another student to physical injury as part of an initiation, or as a prerequisite to membership, into any organized school group, including any society, athletic team, fraternity or sorority, or other similar group." **Any violation of this section shall constitute a Class 2 misdemeanor.**

University Policy on Hazing

Fraternities and Sororities are an integral part of campus life at North Carolina A&T State University. They contribute significantly to the quality of student life in a number of ways such as a)providing a mechanism for students to develop leadership skills through involvement in a variety of programs and activities b)encouraging and fostering team building and group cohesion and c)striving for academic excellence

Since these outcomes parallel several University objectives, A&T welcomes the presence of these groups on campus with the clear expectation that they will abide by all applicable university policies and regulations governing on-campus behavior. To the extent that all activities of fraternities and sororities conform to University expectations, they will continue to enjoy all privileges and courtesies extended to their campus organizations.

However, due to past destructive activities of several fraternities and sororities during the Intake Membership Process, the University is setting forth these hazing penalties and restrictions governing the intake process:

1. Criminal prosecution in the court for individual students involved.
2. University disciplinary action through the University Tribunal
3. Sanctions against the organization:

First Offense: One-year suspension

Second Offense: Two-year suspension

Third Offense: Four-year suspension

Fourth Offense: Revocation of Chapter ´s Charter
