**Message from the Director**

Welcome to the web page of the Sebastian Health Center on the beautiful campus of North Carolina A&T State University in Greensboro, NC. The Health Center is an auxiliary service under the Division of Student Affairs.

As Executive Director, my job is to create and maintain a student-focused & student-friendly health care setting. At the Student Health Center, you will receive cost-effective, quality health care from fully trained & licensed professionals, certified in their respective fields. All professional staff undergo continuing education, as required by their professional licenses. Our purpose is to keep students healthy so that they can engage productively in the academic affairs at the University, improving academic performance and increasing retention.

Flu Shots are offered in the Sebastian Health Center for an nominal fee. Please contact the Health Center at 336-334-7880 for additional information.

Free Chlamydaia Screening

**New Hours of Operation**

**Fight for the Deadline**

**Waive / Enroll Now**

**May 1, 2009 - September 11, 2009**

**NC Immunization Requirements**

**Graduate Student**

**New Student / Transfer to NCA&T**

We are committed to providing students on our campus excellent health care during their academic endeavors. The Health Center staff works continuously to improve service delivery through clinical services, health education and promotion, auxiliary services and insurance needs.

Wishing you the best of health,

Linda R. Wilson  
Executive Director  
Student Health Services  
Sebastian Health Center  
North Carolina A&T State University

**SEBASTIAN HEALTH CENTER**

**"IN SICKNESS & HEALTH"**

In sickness & health, the Sebastian Health Center is committed to the concept of wellness. It is our intention that North Carolina Agricultural and Technical State University students regard the health center as a place to seek care and treatment during illness.

The Sebastian Health Center seeks to advance and maintain the health of university students by altering or eliminating health-related obstacles and empowering them to be self-directed in their individual care.
