Letter of Transmittal:

This report summarizes the initiatives and activities of the Academy for Teaching and Learning (ATL) during the period June, 2007 – May, 2008 and outlines ATL goals and objectives for the period June, 2008 through May, 2009.

Scott Simkins, Director, Academy for Teaching and Learning

I. EXECUTIVE SUMMARY

A. Introduction

During 2007-2008 ATL activities expanded beyond traditional teaching/learning-related faculty development support (such as teaching/learning workshops and faculty development grants) to include projects: (1) using and generating data to better understand the NCAT learning environment and the learning activities, backgrounds and dispositions of our students (Wabash National Study of Liberal Arts Education and CASTL Institutional Leadership Program); (2) exploring innovative ways to improve student learning outcomes in high-failure-rate courses (Math-Chemistry Faculty Learning Community); (3) bringing together faculty and students to develop measurable student learning outcomes for critical university-wide learning goals (CASTL Institutional Leadership Program); and (4) publicly sharing information about junior faculty concerns and recommendations for improving junior faculty job satisfaction (Junior Faculty Task Force Report dissemination and action). In each case, the ATL played a critical role in bringing diverse groups of faculty members, students, and administrators together to work on challenging problems central to the mission of the university with the aim of promoting holistic faculty development and the improvement of student learning.

B. Vision

Consistent with the mission of the Academy for Teaching and Learning, the ATL will continue to meet the important needs of faculty in the critical areas of teaching and learning (expanding knowledge, application, and research on scholarship related to student learning and teaching methods derived from that research).

In addition, the ATL will continue to be involved in all aspects of teaching, learning, and professional development, including the assessment of junior faculty job satisfaction and student learning outcomes, development of a comprehensive junior faculty mentoring program, support for curricular/pedagogical innovations aimed at improving retention and graduation rates, design and implementation of policies to make promotion, tenure, and annual review processes more transparent and effective, promotion of innovative instructional technologies, promotion of leadership development for faculty members and administrators, provision of ongoing professional development for department chairs, and support for faculty learning communities linked to university goals and objectives.

As the ATL expands into new areas of support and responsibility, a comprehensive strategic plan for the ATL will need to be developed to account for additional administrative personnel, expanded physical space, and possible realignment of current functional areas outside the ATL that support teaching and learning.
C. Mission

The mission of the Academy for Teaching and Learning, North Carolina A&T’s teaching and learning center, is to promote continuing faculty development and enhanced student learning through the development of scholarly teaching and the scholarship of teaching and learning.

D. Overview of Significant Accomplishments/Outcomes

1. Programs, Initiatives and Activities

In addition to continuing activities such as: (1) Year-long New Faculty Orientation Series, (2) Teaching/Learning/Faculty Development Workshops, (3) the annual Summer Teaching Institute, and the (4) Faculty Development Grant Program (Title III), the following ATL activities during 2007-2008 merit special recognition.

Dissemination of Junior Faculty Task Force Report Results/Recommendations and Implementation of Responses – During 2007-2008 the Junior Faculty Task Force Report and recommendations were disseminated and discussed and initial actions were taken on some of the recommendations.

Celebrating Teaching and Learning at NCAT Day – Newly designed full-day event celebrating teaching and learning, including (1) a teaching and learning workshop, (2) a luncheon honoring past and current teaching award winners, and (3) a “Making Learning Visible” poster session featuring student and faculty work.

Faculty Learning Community for High Failure-Rate Courses – Eight faculty members in Chemistry and Mathematics redesigned freshman-level high-failure-rate courses and implemented innovative teaching methods with the aim of reducing the D-F-W rates in these courses during the fall, 2007 and spring, 2008 terms.

Carnegie Academy for the Scholarship of Teaching and Learning (CASTL) Institutional Leadership Program – This program, led by Drs. Karen Hornsby and Scott Sinkins, was expanded to include 26 faculty members and students during 2007-2008. CASTL Team members worked on: (1) developing measurable learning outcomes for university-wide student learning expectations and (2) summarizing currently available institutional data on student learning outcomes.

Wabash National Study of Liberal Arts Education – Nearly half the freshman class (722) completed Wabash assessments in fall, 2007, with 315 of those completing a second round of assessments in spring, 2008. Results from
these assessments will help the institution assess the conditions that promote student learning.

**Involvement of Faculty Members in Regional and National Scholarship of Teaching and Learning Activities** – This year 25 NCAT faculty members were involved in presentations at the Lilly-Greensboro Conference on College Teaching and 15 faculty members participated in the state-wide NC SoTL Day held at UNC-Greensboro in May, 2008.

2. Research

ATL Director Scott Simkins was the PI or co-PI on three external grant proposals totaling $1.27 million, has three manuscripts/books in progress, and made thirteen conference presentations during 2007-2008.

3. Interdisciplinary and Inter-institutional Collaborations

The ATL director works closely with other teaching center directors in the Triad region (UNC-Greensboro, Greensboro College, Elon University) to make as many faculty development activities as possible available to faculty members from all four campuses. This collaboration has extended the reach of individual campus faculty development resources, benefited NCAT faculty members through access to non-NCAT events, and encouraged cross-institutional dialogue and collaboration.

In addition, the ATL director worked together with teaching center directors at UNC-Greensboro and Western Carolina University to design and implement a system-wide Scholarship of Teaching and Learning Day conference in May, 2008 as part of a CASTL Institutional Leadership Program (UNC System-Wide SoTL Efforts) project. Approximately 90 people attended, including 15 NCAT faculty members.

The ATL director submitted a joint proposal with the teaching center director from UNCG for Distance Education Development funds awarded by UNC General Administration. The project, funded at $35,000, is to develop brief hybrid workshops for use in faculty development with teachers of online courses. The workshops will be included as part of the UNC Online initiative.

4. Enrollment

Not Applicable

5. Students/Scholarships/Fellowships

Not Applicable
6. Outreach & Engagement

Not Applicable

E. Goals For Upcoming Year (2008-2009)

1. Greater Visibility for ATL Activities

Expand promotion of ATL activities through brochures and pamphlets, press releases, updated web page, and articles in order to extend effectiveness of ATL activities.

2. New Strategic Plan for ATL

As noted above, as the ATL expands into new areas of support and responsibility, a comprehensive strategic plan for the ATL will need to be developed.

3. Continue/expand ATL activities

Continue to assess value of new and ongoing ATL activities and continue successful activities.

4. Dissemination of Wabash National Study results

ATL will lead systematic plan to roll out dissemination of assessment results and organize department-level responses.

5. Database of faculty development participation

Database of faculty development participation in ATL workshops and activities is necessary to efficiently track and report individual and school/college participation in ongoing professional development activities.

II. OVERVIEW OF THE UNIT

A. Overview of the Unit’s Strategies/Role in the University and Futures

The Academy for Teaching and Learning plays an important role in the ongoing transformation of the university to a “learning-centered, interdisciplinary university.” Since its inception in January, 2004 the Academy for Teaching and Learning has taken a lead role in increasing faculty members’ knowledge of “best teaching practices” and scholarly research on student learning, promoting classroom-focused pedagogical change based on that knowledge, and encouraging faculty members involvement in the scholarship of teaching and learning.
The ATL has built a substantial faculty knowledge base and promoted innovative teaching methods through a regular series of teaching/learning workshops, the annual Summer Teaching Institute, and individual mentoring in the scholarship of teaching and learning (the latter culminating in the selection of a Carnegie Scholar in 2005).

During the 2006-2007 academic year, ATL activities expanded to include broader faculty development, with particular emphasis on junior faculty development and retention. The ATL director led the Junior Faculty Task Force, which produced a comprehensive report in June, 2007 detailing various areas of junior faculty job dissatisfaction and offering a series of recommendations for improving the professional environment for junior faculty members. The data provided in this report have helped to inform institutional resource decisions related to these recommendations.

In 2007-2008 ATL activities expanded further to include not only teaching/learning-related issues and junior faculty professional development, but also assessment of student learning (including work by the NCAT CASTL Institutional Leadership Team and the Wabash National Study of Liberal Arts Education), department chair development, and mentoring programs.

Going forward, it is likely that the ATL’s mission will expand in scope to encompass the full range of faculty development, including the areas of teaching and learning, professional development (for faculty and chairs), and leadership.

In addition, the ATL serves as a proactive catalyst for institutional change by initiating new activities and processes that promote ongoing professional development and the improvement of student learning. The ATL, through the mentoring of junior faculty, support for professional development, sponsorship of workshops, and facilitation of discussions on teaching/learning issues, in collaboration with deans and department chairs, will continue to provide faculty and administrators with new tools and strategies needed to broaden and enhance the learning environment at NC A&T State University for both faculty and students.

B. Number of Current Faculty and/or Staff

1. One full-time director – Dr. Scott Simkins
2. One half-time administrative assistant – Ms. Mikosha Gatson

C. Number of New Employees/Faculty/Staff

None
D. Advisory Board Members

The ATL Advisory Board is comprised of ten (10) faculty members representing each school/college, Bluford Library, and the University Awards and Honorary Degrees Committee. The latter representative was added during the 2007-2008 academic year at the request of the chair of the University Awards and Honorary Degrees Committee. Each Dean recommends one full-time faculty member from his/her School/College to serve on the ATL Advisory Board. Current ATL Advisory Board members are listed below:

Doris Fultz  
Michael Roberto  
Alice Stewart  
Comfort Okpala  
Derome Dunn  
Ayanna Boyd-Williams  
Pat Shelton  
Craig Rhodes  
*Position Open*  
James Woods

School of Agriculture and Environmental Sciences  
College of Arts and Sciences  
School of Business and Economics  
School of Education  
College of Engineering  
Graduate School  
School of Nursing  
School of Technology  
Bluford Library  
Representative from University Awards and Honorary Degrees Committee

The ATL Advisory Board meets periodically to review and assess teaching portfolios submitted for university-level teaching awards; advise the Director on ATL center direction, initiatives, and activities; and disseminate ATL-related information to faculty, staff, and administrators in their respective units.

E. Basic structure – Organizational chart

The organizational structure of the ATL is illustrated below. The Director of the Academy for Teaching and Learning reports directly to the Provost. The office has a .5 FTE Processing Assistant V (Administrative Support Specialist), Ms. Mikosha Gatson, as staff support. The ATL Advisory Board, comprised of faculty members representing each School/College, serves in an advisory capacity to the Director.
ATL Director – Dr. Scott Simkins has been serving as director since November, 2005. Between January, 2004, when the ATL was reorganized under the Provost, and October, 2005, Dr. Simkins served as interim director of the ATL.

ATL Administrative Assistant – Ms. Mikosha Gatson serves as the half-time Administrative Support Specialist to the director of the ATL. The ATL shares administrative support with Ms. Mary Mims. Ms. Gatson has consistently been rated “very good” overall in her annual evaluations, quickly and professionally adapting to ongoing changes in institutional processes/practices and an increasing workload. Mikosha has helped the ATL to function smoothly and carry out expanded activities without an expansion of human resources.

III. KEY GOALS (2007-2008)

A. Statement of Goal

1. Promote Ongoing Successful ATL Activities
2. Expand and Promote North Carolina A&T State University Teaching Showcase
3. Continue Professional Development and Engagement in Teaching/Learning Initiatives
4. CASTL - Develop Rubric and Examples of Learning Outcomes
5. Develop and Implement Department Chair Development Program
6. Continue to Build Liaisons Across the University
7. Extend Faculty Learning Communities Model
8. Implement Monthly “Teaching and Learning Matters” Presentations
9. Develop and Implement Faculty Development Database
10. Develop and Implement ATL Teaching and Learning Blog
11. Promote Development of iTunes U Resources
12. Assess effectiveness of Faculty Development Grant Program

Additional high-priority goals were added during the 2007-2008 academic year to take advantage of new opportunities and/or respond to strategic plans.

1. Disseminate results of Junior Faculty Task Force Report to deans, department chairs, and faculty members
2. Develop/Implement responses to Junior Faculty Task Force Report recommendations
3. Undertake year-long assessment of first-year NC A&T undergraduate learning and conditions that affect that learning via participation in longitudinal Wabash National Study of Liberal Arts Education
4. Carry out leadership role on UNC-Tomorrow Response Team
5. Carry out leadership role on SACS Steering Committee
B. Key Indicators of Progress

ATL goals listed above are included in the “goals dashboard” on the following pages, along with a brief explanation, key indicators, and the current status of each goal.

[See tables on following pages]
## ATL Goals, Explanations, and Key Indicators

**Summary**

The list of ATL goals above includes a number that were not listed in 2006-2007 ATL Annual Report, reflecting new opportunities and responsibilities. Similar to last year, the ATL responded to these changes by shifting focus to some new activities and deferring progress on others. The ATL will continue to assess and prioritize deferred goals in light of new institutional goals and objectives, acting on these goals in a systematic manner.
C. Outcomes/Results of Goals

1. Junior Faculty Task Force Report dissemination

   - Junior Faculty Task Force Report Completed – June, 2007
   - Administrative Council Meeting – September, 2007
   - Chairs’ Meeting – October, 2007
   - Town Hall Meeting – December, 2007

2. Respond to Junior Faculty Task Force Report recommendations [see Table 6 in the Data Appendix]

The recommendations are organized into four main categories, with multiple recommendations under each category: (1) professional support for junior faculty members; (2) tenure and promotion/annual review process; (3) teaching, service, and workload balance; and (4) overall academic/administrative environment. The recommendations are listed in Table 6 in the Data Appendix, along with progress on responses to these recommendations. At this point, a number of actions have been taken in response to these recommendations:

a. **Junior Faculty Teaching Excellence Award** – This award was inaugurated in spring, 2008. Two junior faculty teaching excellence awards ($7,500) were awarded in March, 2008. The awardees are:

   - Dr. Stephanie Luster-Teasley, College of Engineering
   - Dr. Kenrett Jefferson-Moore, School of Agriculture and Environmental Science.

b. **Faculty Development Research Grants** (course-release and summer pay) – Each dean is provided $15,000 annually to distribute among junior faculty members to support research and scholarly activity. Faculty members are selected by competitive proposal process within each school/college and are expected to produce a manuscript, research proposal, or other scholarly work at conclusion of grant period.

c. **NSF PAID Proposal** – This is a collaborative grant proposal with Georgia Tech University that would provide additional release time for junior faculty women in STEM disciplines in addition to a series of professional development workshops. See section IV.B.1 for additional information.

d. **Mentoring Workshops for Senior Faculty/Administrators and Junior Faculty Members** – Dr. Carol Mullen led two separate workshops on successful mentoring program structures for senior faculty/administrators and junior faculty members in May, 2008.
In addition, planning has begun on a number of other responses, including the development of a comprehensive mentoring program, expanded junior faculty development opportunities, new faculty hiring packages, department chair professional development, upgrades of classroom technology, and expanded support for students with under-prepared academic skills coming into college.

Drs. Karen Hornsby and Scott Simkins are leading NCAT’s participation in this national longitudinal study, which assesses student learning in a variety of areas (critical thinking, writing, moral reasoning) and seeks to better understand the conditions that matter for promoting student learning. In fall, 2007, 720 freshman students completed all Wabash assessments; in spring, 2008, 315 of these students completed a second set of Wabash assessments. Value-added analysis is being completed in summer, 2008, with results to follow in fall, 2008. The Wabash Team (+ two Teagle Scholars) visited in April, 2008 to share results of the fall, 2007 Wabash assessment at NCAT.

4. UNC-Tomorrow Response Team leadership

Chair of the Changes in Internal Policies and Processes Workgroup and member of the UNC Tomorrow Response Team responsible for drafting comprehensive NCAT UNC Tomorrow Response. Work will continue through December, 2008.

5. SACS Steering Committee leadership

Chair of the SACS Subcommittee on Mission, Governance, and Administration and member of the SACS Steering Committee. Responsible for drafting compliance certification responses for a number of SACS Principles. There are five members on this subcommittee. Work will continue throughout the 2008-2009 academic year.

6. Promote successful ATL activities

a. **Faculty Development Grant Program** (Title III Funds) [See Tables 4 and 5 in the Data Appendix]

ATL Faculty Development Grant award activity for 2006-2007 is summarized in Table 4 in the Data Appendix. A total of $66,056 was awarded to support 62 awards for travel to conferences and meetings with the aim of increasing professional knowledge and teaching skills.

The College of Arts and Sciences received just under one-third of the Faculty Development Grant funds awarded, with the School of Education
following close behind. The average award was $1065.43, which was approximately 70% of the amount requested by faculty members. This is the stated policy for Faculty Development Grants, as posted on the ATL web site. Departments and Schools/Colleges are expected to cover the difference between Faculty Development Grant award amounts and actual travel costs.

Additional funds ($28,315) were used to support: (1) library staff professional development, (2) faculty participation in the Lilly-Greensboro Conference on College Teaching and the NCSU Undergraduate Assessment Conference (for presenters only), (3) honoraria and travel expenses for external workshop presenters, and (4) CASTL Institutional Leadership Group travel. See Table 5 in the Data Appendix for details.

A small State fund supported international travel for four faculty members ($7,956)

b. **New Faculty Orientation Series (Opening Day Breakfast/Welcome and New Faculty Lunch Series** [see Tables 1 and 1a in Data Appendix]

Over 50 new faculty members participated in the August, 2007 Opening Day New Faculty Orientation Kickoff/Breakfast

Twelve New Faculty Lunch Series sessions were held during 2007-2008, covering a broad array of topics related to new faculty issues. Average attendance per session was approximately 14, but session attendance ranged from 5 to 25. The sessions were attended by 57 unique faculty members, with 6 attending six or more of the sessions and 29 attending two or fewer. See Tables 1 and 1a in the Data Appendix for the full schedule, including dates, topics, and attendance figures.

c. **Faculty Development Workshops and Summer Teaching Institute** [see Tables 2 and 3 in Data Appendix]

The ATL sponsored 13 teaching/learning workshops during 2007-2008, seven of which were led by regional/national experts on their topic. A full list of workshop topics, dates, and presenters is provided in Tables 2 and 3 in the Data Appendix. Attendance ranged from 5 to 28, with an average attendance of 14 per workshop. The 5th Annual Summer Teaching Institute attracted approximately 100 attendees, about a third from institutions beyond NCAT.

In addition, Scott Simkins led two-day workshop for University Studies Faculty and a half-day Graduate Teaching Assistant Workshop in August, 2007.
7. Redesign NCAT Teaching Showcase

The ATL designed and led a "Celebrating Teaching and Learning at A&T" Day on March 31. The day included a teaching/learning workshop, a luncheon attended by approximately 45 people honoring past and current teaching award winners, including the new Junior Faculty Teaching Excellence Award, and a Teaching Showcase poster session that attracted eighteen posters by students and faculty members illustrating student learning activities that were carried out in classes. Interviews of poster presenters were videotaped and will be made available on YouTube.com.

8. Continue ATL director professional development

See the summary of activities in section IV.B. The director was the PI or co-PI on three external grant proposals totaling $1.27 million, has three manuscripts/books in progress, and made thirteen conference presentations during 2007-2008.

9. Initiate CASTL activities with NCAT faculty/students

Drs. Karen Hornsby and Scott Simkins are directing the NCAT CASTL Institutional Leadership Program team, which is made up of 26 faculty members and students. The team is split into two groups, one working on developing rubrics and sample student artifacts for the seventeen NCAT expected learning outcomes passed by the Faculty Senate in 2004 as part of the general education review/reform process, and the other working on a summary of currently available data on the student learning environment at NCAT, including previous NSSE and sophomore/senior surveys, the Collegiate Learning Assessment, and the Wabash National Study of Liberal Arts Education. A summary report will be completed in June, 2008.

10. Develop/Implement department chair development program

This is still in the planning process, with initial department chair meetings held once per semester in 2007-2008 (directed by Lea Williams) and continued discussion with Provost on future program plans.

11. Collaborate with groups across the University (esp. Fac. Senate)

I spoke with Faculty Senate President Linda Callahan at the start of the 2007-2008 academic year about forming a Faculty Senate Committee on Student Learning but there was no action taken on this. In April, 2008 I spoke with Faculty Senate Vice-President Craig Rhodes about the same topic. To be taken up again in fall, 2008.
12. Develop/implement faculty development database

Deferred to summer, 2008

13. Develop/implement ATL Teaching and Learning weblog

Deferred to summer, 2008

14. Extend faculty learning communities model

Goal for 2008-2009 year; develop faculty learning community for junior faculty on cooperative learning and classroom assessment techniques.

15. Implement monthly "Teaching and Learning Matters" series

Possible implementation in 2008-2009 school year.

16. Development of iTunes U

iTunesU site available but not developed; transfer to DoIT to manage, oversee, and publicize.

17. Assess effectiveness of Faculty Development Grant program

Assess impact of Faculty Development Program on curricular/course redesign and/or pedagogy innovations via faculty survey to past Faculty Development Awardees during 2008-2009 academic year.

D. Data Summary and Productivity Measures

The Data Appendix includes the following information:

ATL Goals, Explanations, Key Indicators, and Progress Toward Goals
Table 1: New Faculty Lunch Series Attendance by School/College and Event
Table 1a: New Faculty Lunch Series Topics and Dates
Table 2: ATL Workshop Attendance by School/College and Event
Table 3: ATL Workshops Topics, Dates, and Presenters
Table 4: Distribution of Faculty Development Grants by School/College
Table 5: Additional Faculty Development Allocations
Table 6: Junior Faculty Task Force Recommendations and Responses

E. New Faculty and Administrators as Related to Goals of Capacity Building

ATL Fellows Program that would provide release time for two faculty members per year to undertake Scholarship of Teaching and Learning projects and help
lead/oversee ATL activities (e.g. brown bag lunch series, workshop presentations, faculty learning communities, etc.) was included in 2007-2012 Title III proposal from ATL director but was not included in final NCAT Title III proposal sent to U.S. Department of Education.

IV. MOST SIGNIFICANT ACCOMPLISHMENTS

A. Learning

1. Innovations in Pedagogy Implemented Including the Use of Information and Instructional Technology

   a. In consultation with Asst. Vice Chancellor for DoIT, promote addition of new suite of tools (blog, wiki, journal) tools to Blackboard course management system. Led ATL webinar session introducing these tools in May, 2008. To be installed and made available to faculty members in summer, 2008

   b. Provide input to Asst. Vice Chancellor for DoIT on “Faculty Instructional Technology Sandbox,” where faculty members can experiment with new technology to be used in teaching.

   c. Through UNC TLTC initiative, introduce open-source alternatives to Blackboard (Moodle) with small group of NCAT faculty; follow-up in summer/fall 2008.

2. through 7.

   Not Applicable

8. ATL Activities Promoting Learning (Added Category)

Atl activities are outlined in the Executive Summary and in Section III.B and III.C. The most significant accomplishments during 2007-2008 include:

**Dissemination of Junior Faculty Task Force Report Results/Recommendations and Implementation of Responses** – During 2007-2008 the Junior Faculty Task Force Report and recommendations were disseminated and discussed and initial actions were taken on some of the recommendations. The ATL played an important role in this process, (1) developing criteria for, disseminating information about, and implementing a new Junior Faculty Teaching Excellence award; (2) providing input to the Provost on programs for research grant support and departmental chair professional development; and (3) serving as the primary disseminator of information to deans, chairs, and faculty members.
Celebrating Teaching and Learning at NCAT Day – Designed as a full-day event celebrating teaching and learning, this event included (1) a teaching and learning workshop, (2) a luncheon honoring past and current teaching award winners, and (3) a “Making Learning Visible” poster session featuring student and faculty work.

Faculty Learning Community for High Failure-Rate Courses – Eight faculty members in Chemistry and Mathematics redesigned freshman-level high-failure-rate courses and implemented innovative teaching methods with the aim of reducing the D-F-W rates in these courses during the fall, 2007 and spring, 2008 terms. Lessons from this group may provide advice for other high-failure-rate courses across campus. The full report from this group is due in mid-June, 2008.

Carnegie Academy for the Scholarship of Teaching and Learning (CASTL) Institutional Leadership Program – This program, led by Drs. Karen Hornsby and Scott Simkins, was expanded to include 26 faculty members and students during 2007-2008. The team was split into two groups, with the following tasks: (1) developing measurable learning outcomes for each of the 17 NCAT Expected Learning Outcomes approved by the NCAT Faculty Senate in 2004; and (2) summarizing currently available institutional data on student learning outcomes in a comprehensive report to be made available to the campus community.

Summer Teaching Institute – This two-day workshop continues to be the most popular ATL event of the year, providing faculty access to nationally-recognized experts in student learning and faculty development.

Wabash National Study of Liberal Arts Education – Providing a tremendous opportunity to gain deep understanding of NCAT student learning and the conditions that promote that learning, we are one of 26 institutions nationwide participating in this longitudinal study.

Involvement of Faculty Members in Regional and National Scholarship of Teaching and Learning Activities – This year 25 NCAT faculty members were involved in presentations at the Lilly-Greensboro Conference on College Teaching and 15 faculty members participated in the state-wide NC SoTL Day held at UNC-Greensboro in May, 2008.

B. Discovery

1. New Research Awards/Proposals

   Grant Proposals
ATL director (Simkins) was the PI or co-PI on $1.27 million in proposed grant projects during 2007-2008. The proposals and current status are listed below.

a. **National Science Foundation – Division of Human Resource Development, Partnerships for Adaptation, Implement and Dissemination (PAID)**
   Proposal Number: 0820064
   Proposal Title: *Collaborative Research: Research, Practice, and Policy--A Partnership of Georgia Institute of Technology and North Carolina Agricultural and Technical State University*
   Principal Investigator: Janice Brewington
   Co-PI: Scott Simkins
   Amount: $274,554
   Status: Under Review
   Focus: Provide faculty development (workshops, release time, simulations) for women in STEM disciplines.

b. **National Science Foundation – Division of Undergraduate Education, Course, Curriculum and Laboratory Improvement Program: Phase 2 (Expansion Project)**
   Proposal Number: 0817382
   Proposal Title: *Developing an Economics Pedagogic Portal*
   Principal Investigator: Scott Simkins
   Co-PI(s): KimMarie McGoldrick (Univ. of Richmond), Mark Maier (Glendale Community College), Cathryn Mandoza (Carleton College)
   Amount: $497,953
   Status: Under Review
   Focus: Develop and disseminate online pedagogic modules for economics instructors; building on previous two NSF grants adapting STEM-discipline pedagogic innovations for economics instructors.

c. **National Science Foundation – HBCU Undergraduate Program**
   Proposal Number: 0811367
   Proposal Title: *Analyzing the Effects of Supplemental Instruction on Freshman Mathematics Courses*
   Principal Investigator: Kathy Cousins-Cooper
   Co-PI(s): Katrina Staley, Barbara Tankersley, Scott Simkins
   Amount: $496,832
   Status: Declined
   Focus: Develop and implement supplemental instruction for early-year students in math courses.
Grant Participation (NCAT Subcontract)

a. Funded Project: CAT – Critical Thinking Assessment/Dissemination Project
Funded Organization: Tennessee Tech University
Funding Agency: National Science Foundation
NCAT Subcontract: $2000 to be used for faculty scoring of CAT instrument (faculty development) – NCAT Contact: Simkins
Focus: Dissemination of CAT Critical Thinking Test developed at Tennessee Tech (CAT assessment will be administered to 100 NCAT undergraduates) and scoring of results locally by faculty members

b. Funded Project: Distance Education Grants
Funded Organization: UNC-Greensboro (Simkins: Co-PI)
Funding Agency: UNC General Administration
NCAT Subcontract: $4000 to be used to develop brief hybrid workshops for distance education courses during summer and fall, 2008

2. Scholarly Productivity

Working Papers/Books/Works in Progress

a. Scott Simkins and Mark Maier, Learning from Physics Education Research: Lessons for Economics Education, In progress (to be submitted to Social Science Research Network, June 2008)
b. Scott Simkins and Mark Maier (editors), Just-in-Time Teaching Across the Disciplines, Across the Academy, Stylus Publishers and National Teaching and Learning Forum, forthcoming (2009)

Conference Presentations

The ATL director is a regular presenter on teaching/learning and Scholarship of Teaching and Learning (SoTL) topics at local, regional, national, and international conferences. The director made 13 professional conference presentations during 2007-2008, listed below:

g. Invited Plenary Speaker (*SoTL – It’s All About Learning*) and Workshop Facilitator, Western Carolina University Scholarship of Teaching and Learning (*SoTL*) Retreat, Nantahala Village Resort and Spa (February, 2008)

h. Co-Presenter (with Ray Purdom, UNC-Greensboro), *Building a Foundation for the Scholarship of Teaching and Learning*, University of North Carolina Teaching and Learning with Technology Conference, Raleigh, NC (March, 2008)

i. Co-Presenter (with Ray Purdom, UNC-Greensboro), *Help for the Faculty Development Crisis: Five-Minute e-Clips and Online Workshops*, University of North Carolina Teaching and Learning with Technology Conference, Raleigh, NC (March, 2008)

k. Roundtable Discussion Leader (with Karen Hornsby and Dianne Williams, NCAT), *Engaging Faculty in Assessing Student Learning*, NC State Undergraduate Assessment Conference, Cary, NC (April, 2008)

l. Co-Presenter (with Drew Clark, Auburn University), *The CLA Longitudinal Study After Two Years: Preliminary Findings and Implications*, NC State Undergraduate Assessment Conference, Cary, NC (April, 2008)

3. Professional Growth and Development – Faculty and Staff

Conference Participation (in addition to conference presentations)

Ideas gained from conference participation often lead to workshop presentations at North Carolina A&T State University and broaden the background of the director in developing new ATL initiatives. Conferences attended during 2007-2008 include:

c. Collegiate Learning Assessment/Lumina Foundation Working Conference, Ohio State University, October, 2007

C. Engagement

1. Outreach and Access Activities

Not Applicable

2. New Collaborations/Partnerships

External Collaborations

a. NC Scholarship of Teaching and Learning Day – May 30, 2008

CASTL Institutional Leadership Team (System-wide SoTL Efforts) event organized by Scott Simkins, Ray Purdom (UNC-Greensboro), and Anna McFadden (Western Carolina University) to promote the scholarship of teaching and learning across the UNC system. Simkins and Purdom are part of original group submitting application on behalf of UNC system to Carnegie Foundation for participation in the CASTL Institutional Leadership Program (other members: Univ. of Wisconsin system, CUNY system, Univ. of Colorado system, Miami-Dade Community College system)
More than 80 faculty members, including 15 from NCAT, participated in this event, held at UNC-Greensboro.

b. Triad-area Teaching Center Directors

Teaching center directors from NCAT (Simkins), UNC-Greensboro (Ray Purdom), Elon University (Peter Felten), and Greensboro College (Ann Walter-Fromson) share faculty development resources. Faculty members from each institution are invited to participate in workshops at each institution. NCAT faculty members have benefitted from attendance at workshops at each of the institutions during 2007-2008.

c. UNC GA Distance Education Grants (Summer, 2008)

Scott Simkins, Ray Purdom (UNC-Greensboro), and Jane Harris (UNC-Greensboro) submitted joint proposal to UNC General Administration to develop brief hybrid workshops for distance education teachers. The project was funded ($35,000). The online workshops will be available to all faculty members across the UNC system.

**Internal (within NCAT) Collaborations**

a. ATL/University Studies

The ATL has worked closely with University studies during the past two years to: (1) conduct beginning-of-year teaching workshops for University Studies faculty members, (2) conduct assessments of student learning (Wabash National Study of Liberal Arts Education) that can be used to support University Studies curriculum, (3) mediate discussion between STEM faculty and Analytical Reasoning faculty regarding course goals and activities, (4) purchase starter library ($1000) of teaching and learning-related books for use among University Studies faculty members and (5) purchase FLIP video cameras ($300) for use by University Studies faculty members.

b. ATL/SACS Steering Committee

ATL initiatives (Wabash National Study of Liberal Arts Education, Collegiate Learning Assessment and Collegiate Learning Assessment) will provide valuable assessment data for SACS Compliance Certification.

c. ATL/Office of Institutional Planning, Assessment and Research

ATL-led Wabash National Study of Liberal Arts Education includes National Study of Student Engagement, increasing pool of NCAT students with NSSE results by 315.
d. ATL/ Dept. of Economics and Transportation/Logistics

ATL worked with Dept. of Economics and Transportation/Logistics during 2007-2008 to plan student Focus Group sessions aimed at reducing D-F-W rate in introductory statistics courses.

3. Student Activities – Organized Student Activities and Groups: 
sophomore/senior survey results

Not Applicable

4. Staff Activities in Support of Learning, Discovery, and Engagement

Not Applicable

D. Retention

1. ATL-led Math/Chemistry Faculty Learning Community project during 2007-2008 focused on reducing D-F-W rate in freshman-level chemistry and mathematics courses. Eight faculty members representing four courses implemented course redesign projects and pedagogical innovations and assessed outcomes during the fall, 2007 and spring, 2008 semesters. Fall, 2007 changes had small impact on student learning; final report from group is due in mid-June, 2008. Funded by Lea Williams, Associate Vice Chancellor for Academic Affairs/Institutional Planning Assessment and Research with Focused Growth funds from UNC General Administration.

V. GOALS FOR UPCOMING YEAR 2008-2009

A. Goals and Key Indicators of Progress

A number of 2007-2008 goals listed in section III.B were deferred to 2008-2009 in light of new opportunities and responsibilities acted upon during 2007-2008. Below are a set of key ATL goals (indicators of progress) for 2008-2009.

1. Greater Visibility for ATL Activities

The ATL has been in existence for four and half years and has “touched” many faculty members through workshops, targeted course development, teaching awards, grant proposals, participation in national organizations and studies, support for ongoing professional development, and individual consultations. Yet, ATL efforts often remain in the background due to lack of public relations and advertising, reducing the potential impact of the organization. Additional effort should be exerted on making the ATL more “public” in 2008-2009.
Indicators of progress: brochures and pamphlets, press releases, updated web page, articles in Aggie Update and A&T Today on ATL activities such as Wabash National Study and CASTL Institutional Leadership Program.

2. New Strategic Plan for ATL

As noted in the “Vision Statement” in the Executive Summary, “As the ATL expands into new areas of support and responsibility, a comprehensive strategic plan for the ATL will need to be developed to account for additional administrative personnel, expanded physical space, and possible realignment of current functional areas outside the ATL that support teaching and learning.”

Indicators of Progress: ATL Strategic Plan developed and submitted to Provost, realignment of functional areas supporting teaching and learning, especially those involved with instructional technology and distance education.

3. Continue/expand ATL activities

Continue to assess value of new and ongoing ATL activities and continue successful activities such as New Faculty Lunch Series, Faculty Development Grant Program, Celebrating Teaching and Learning Day, and Summer Teaching Institute.

4. Dissemination of Wabash National Study results

Results from NCAT Wabash National Study of Liberal Arts Education assessments in fall, 2007 and spring, 2008 will be available in September, 2008. We have scheduled a visit for the Wabash team in late September, accompanied by a public presentation/workshop. Action items will include responses by departments to Wabash results, with public dissemination to university community in late fall, 2008.

Indicators of Progress: systematic dissemination of Wabash assessment results followed by departmental action items in response to results.

5. Database of faculty development participation

Developing a database of faculty development participation in workshops and activities led by the ATL would allow faculty members to obtain summary reports of faculty development activities for their annual reports and tenure/promotion dossiers. The database would also permit systematic tracking of school/college participation in ongoing professional development activities.
VI. APPENDICES – Supporting Data (*Use tables where appropriate*)

A. – C.

Not Applicable

D. Listing of Public Service Activities

1. Professional Service

   d. Board Representative and Vice-Chair (2007-2008), University of North Carolina Teaching and Learning with Technology Collaborative (UNC TLTC), 2004 – present [Leadership Activities: Finance Committee, Professional Development Portal Committee]
   e. Member: American Economic Association, The Professional and Organizational Development Network in Higher Education (POD), International Society for the Scholarship of Teaching and Learning

2. Service to the University

   a. UNC Tomorrow Response Team (Workgroup Chair, Changes in Internal Policies and Processes)
   b. SACS Steering Committee (Chair, Committee for Mission, Governance, and Administration) (Spring, 2007 – )
   c. Search Committee, Assoc. Vice-Chancellor for Div. of Information Technology (Spring, 2008)
   d. Junior Faculty Task Force (Chair) (Spring, 2007 – )
   e. New Classroom Building Committee (Spring, 2007 – )
   f. University-Wide Retention Committee (High Failure Rate Courses Subcommittee) (Spring, 2007 – )
   g. Administrative Council (formerly Dean’s Council), Spring 2004 – present

3. Service to the Community

   a. Lead volunteer, 4th Saturday, Potter’s House Soup Kitchen, Greensboro Urban Ministry
   b. Treasurer (with wife, Jan), Western Guilford High School Band Boosters

E. Data Appendix (Added Section)
