

Goal Four

**Superior  
Student  
Services**

#### Goal 4

Provide superior, readily available student services and programs that recognize and respond to diverse student needs.

#### **Strategies**

- Provide integrated curricula and co-curricula activities that foster the development of intellectual, cognitive, social, personal, and physical competencies.
- Provide integrated student services, and
- Conduct assessment of student service needs and activities.

#### **Activities**

- Establish a Student Services Center with 24-hour access to all services affecting student matriculation, including registration, housing, dining, health, and financial processes.
- Develop and conduct seminars developed by Student Services staff and faculty that enhance the intellectual, cognitive, social, personal, and physical competencies of students.
- Develop an advisement model to guide advisors and participants in student clubs and organizations to facilitate the development of intellectual, cognitive, social, personal, and physical competencies.
- Create feedback and response mechanisms to ensure student involvement in the implementation process.

#### **Expected Outcome**

Students graduating from A&T will be well-trained, knowledgeable, and responsible community citizens, prepared to become effective leaders and contributors to a global society.
