## SCHOOL OF BUSINESS AND ECONOMICS

### About Us

Strategic Plan | **Executive Advisory Council** | Alumni | Office of the Dean

**Dr. Bernard J. Milano**  
Chairman of the Executive Advisory Council

### Executive Advisory Council

The Executive Advisory Council (EAC) was established to foster a forum for open discussion and interactions between businesses and the various professions with the administrative and academic leadership of the School. The functions and objectives of the Council include the following:

- To provide advice to the Dean and faculty of the School on the appropriateness of the mission and the goals, objectives, and activities for achievement
- To provide advice and counsel to enhance the curriculum, the curriculum delivery system, and the long-range planning process
- To engage in strategies and initiatives to increase business and community awareness and involvement with programs and activities of the School
- To assist in the development of internal and external support to foster continued improvement and overall high quality
- To facilitate the integration of current practices of the various professional disciplines into curricula and co-curricula activities.
